FRAMES

Flexible By Design. Build To Any Size

✦ **ASTRA** ✦

FRAMES

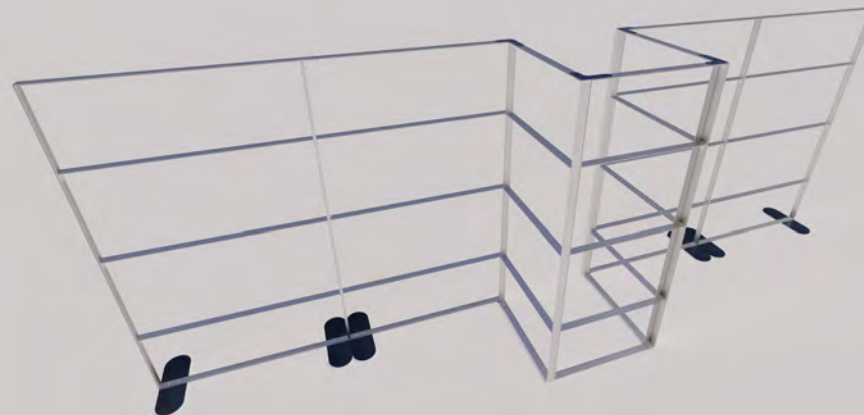

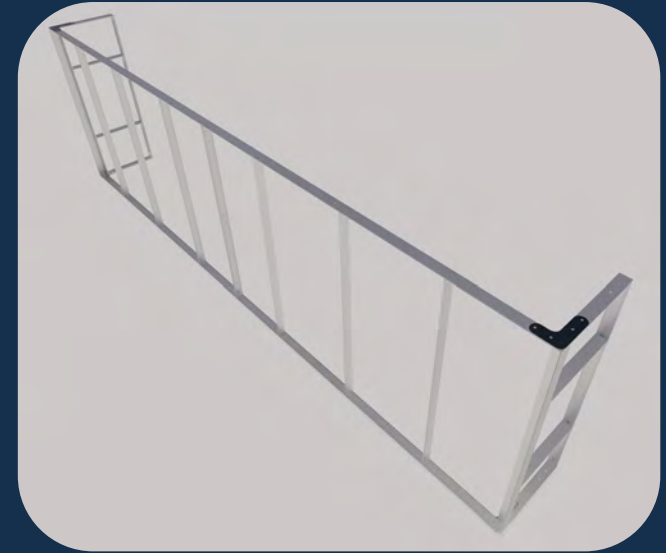

Is an innovative modular banner system that transforms into multiple shapes and sizes, delivering maximum flexibility for any environment.

✦ Module configuration ✦

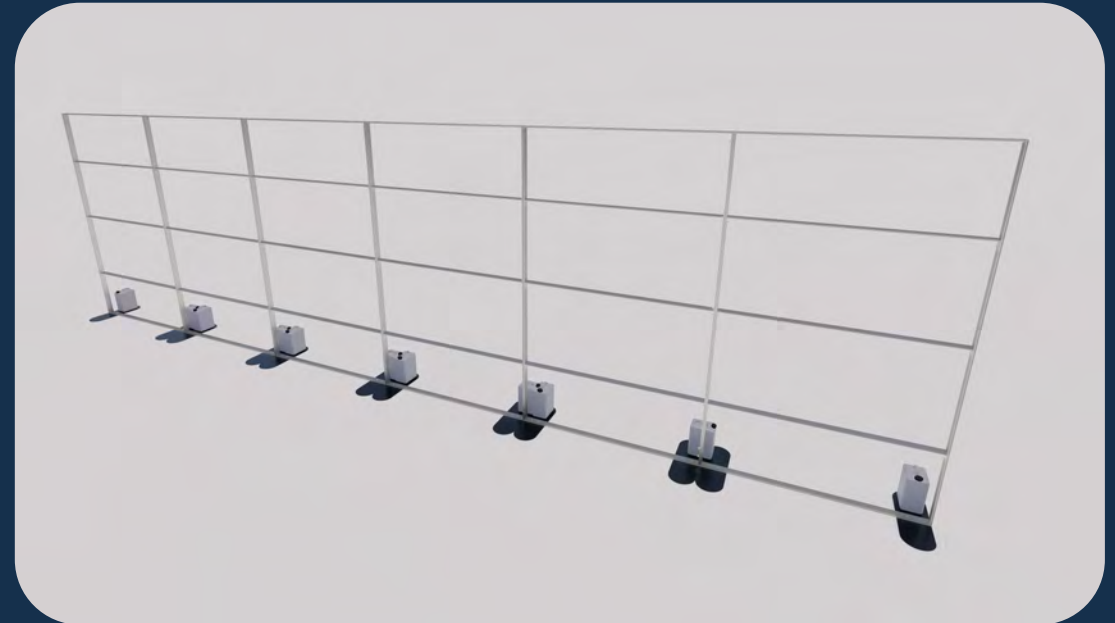

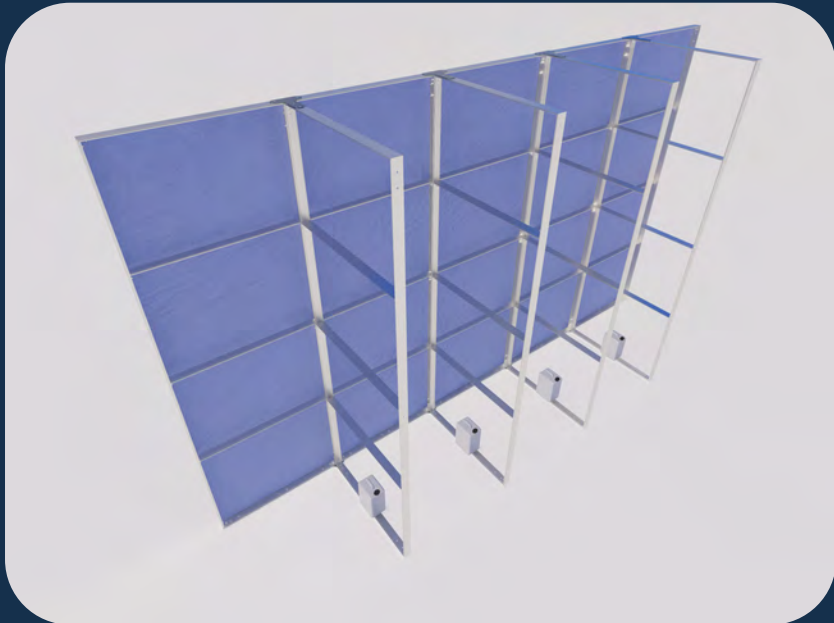

Frame modules can be connected into various configurations:

- Column wrap
- U-shape
- Zigzag
- Corner
- Use as standalone banners

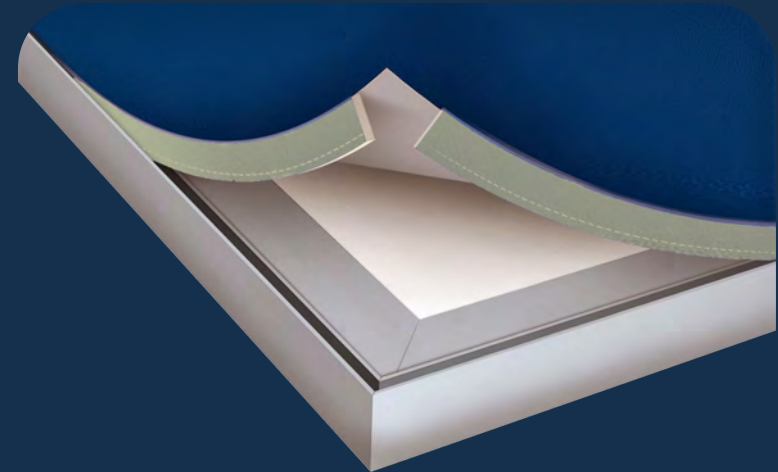

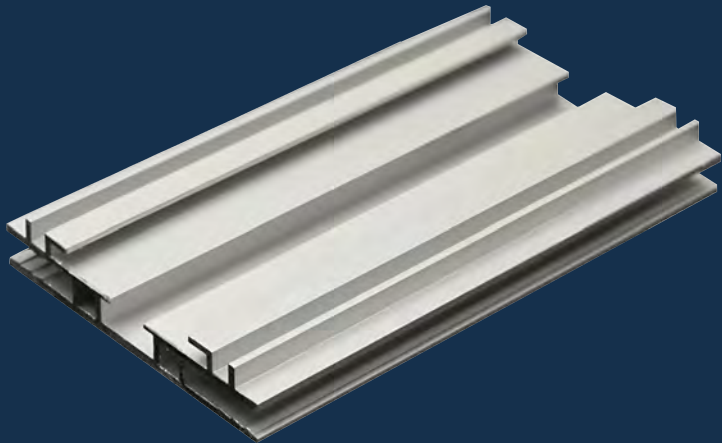

✦ Advantages ✦

- **Any length** — scalable to dozens of meters
- **Stability:** weighted support legs, jerry-can weight, support frames for bigger units
- **Available heights:** 1, 1.5, 2, 2.5, 3 m

✦ KEDER Mounting System ✦

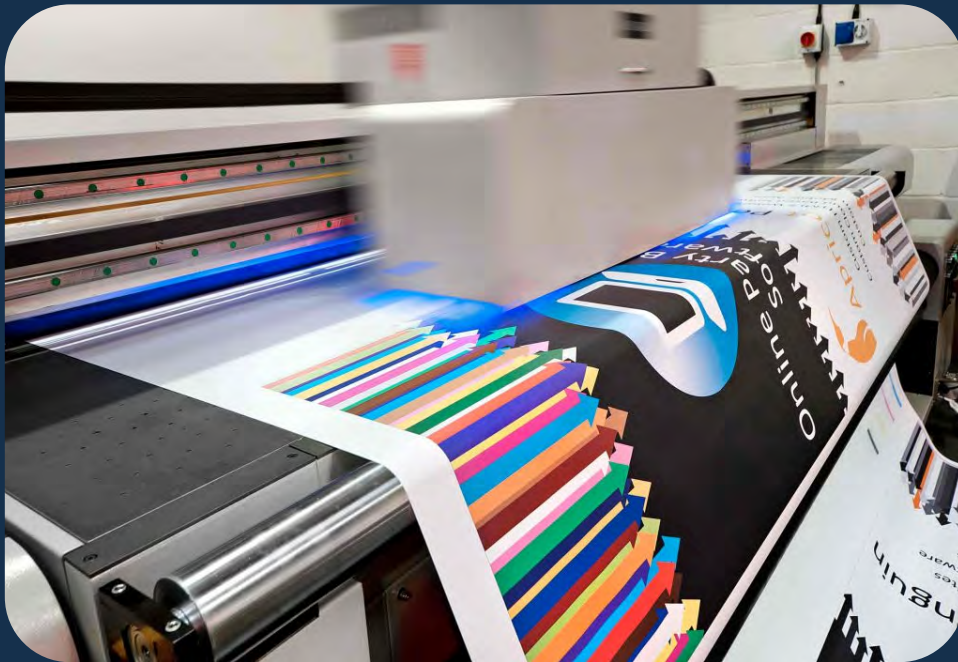

- Robust aluminium frame
- Keder-edged banner slides directly into the frame
- Creates a smooth, wrinkle-free finish
- Single- or double-sided graphics are supported

✦ Banner Printing ✦

Our banners are printing on Blackout textile:

- Fully opaque, high-density, tear-resistant
- No fraying at edges or damage points
- Large format printing available
- Fast printing without compromising quality
- Colour-accurate printing — no bleed, no fade

Available Frame Inventory

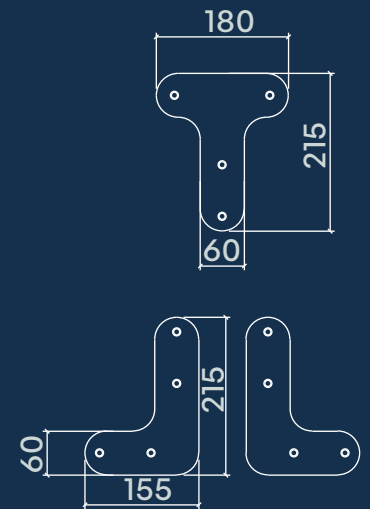

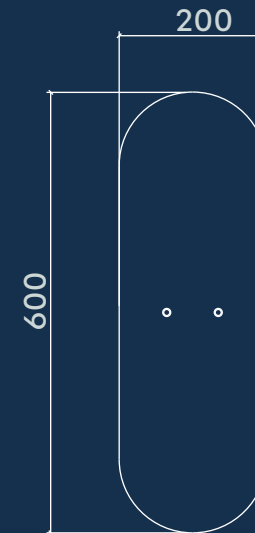

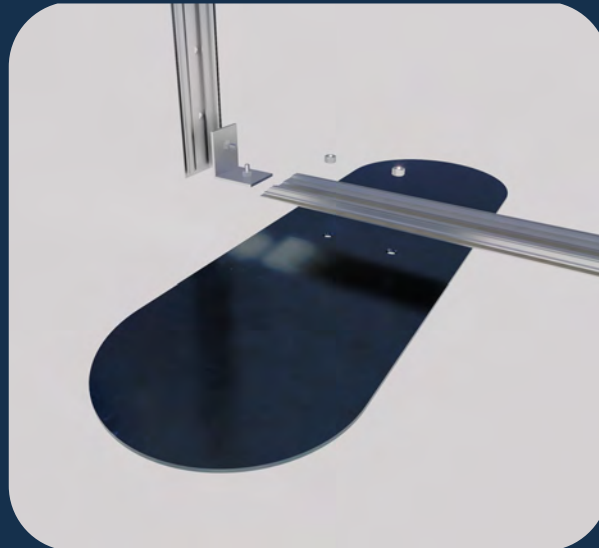

Custom sizes and frames
configurations available
upon request

✦ Engineering ✦

- Profiles include pre-drilled holes for legs, T-corners, corner joints, and side connections
- Structurally stable frame constructions
- Optional support plates for increased rigidity
- Weighted bases available for freestanding stability

✦ Variations of look ✦

✦ Built for Your Business ✦

Custom sizes

Premium quality

Easy design change

Scalable system — from standees
to large-scale installations

All-in-one — print, frame, and
mounting system combined
